Claims 1-21 are allowed.

Reasons for Allowance

A transcutaneous composition comprising the instantly claimed ingredients is neither taught nor reasonably suggested by the prior art. The closest prior art appears to be that of McClung (US 6,579,543) which teaches topical skin compositions comprising several of the instantly claimed herbal and non-herbal components (but does not teach or reasonably suggest the overall combination of ingredients recited within the instantly claimed mixture).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
